## 60484 Lumitester Control Kit

-new label and new name \* no change for the spec-

We hereby inform the update of 60484 “Lumitester Control Kit” as in the title. There will be some small change for its name and seal label of positive rod, due to the release of our new machine “Lumitester Smart”. Updated product will be launched from June, 2019.

Details are as follow;

### 【Product Information】

	Current Product	Updated Product
Code	60484	60484
Product Name	Lumitester PD-20/PD-30 Control Kit	<b>Lumitester Control Kit</b> for Smart/PD-30/PD-20
Designated for	Lumitester PD-20/PD-30	Lumitester <b>Smart</b> /PD-30/PD-20
Positive Rod *Label Renewed	RLU value Minimum valid date	RLU value for PD-20/PD-30 <b>RLU value for Smart</b> Minimum valid date
Note	*Current product will be updated after calibration, with calibration fee.	*Control Kit confirm whether the specified measurement value on the seal label is obtained or not. *Smart and PD-20/PD-30 shows different RLU values when tested with Control Kit, as wavelength of light emitted by Control Kit and LuciPac are different. *Smart and PD-20/PD-30 shows same RLU values when tested with LuciPac series, as its sensor adjust to have same output for the wavelength of light emitted by LuciPac series.
